

# Bathroom Adaptation Customer Testimonial

We returned to Mrs B. Powys to install a complete level access wetroom to assist with her mobility and to enable her to keep her independence.

*"I was very pleased with it. The builders were very polite and courteous too..."*

## Why did you choose GB Electrical & Building Services Ltd to complete the work?

I had a fall and broke my hip so the OT was called out and suggested I had a wetroom installed as I really struggled getting in and out of the bath and kept tripping. I tried the foot stalls but it was clear I needed a wetroom and it sort of went from there.

## Did the service meet your expectations?

I was very pleased with it. The builders were very polite and courteous too.

## How has it impacted your daily life?

It has been a great help. It is so much easier. I am pleased with it.

## If you were to recommend us, what would you say?

I would highly recommend you. GB were very helpful. I thanked them before but please do pass on that I am very happy with it.
