

Wetroom Adaptation Customer Testimonial

After an occupational therapist assessment, Mrs D. in Hereford, was granted a Disabled Facilities grant through Herefordshire Council to have a complete level access shower room.

"...makes a huge difference to my day to day... it is no longer painful..."

Did the service meet your expectations?

Stuart, the builder, was absolutely fantastic. I can't fault him. He was friendly, told me what was happening, and did a great job. I'd recommend him to anyone. The electrician was good as well. The wetroom is lovely, it covers all my needs and makes a huge difference to my day to day. There were a few times where I had to leave him working in the house to collect the kids from school and when I had my hospital appointments. I felt comfortable leaving him in the house as he was really trustworthy.

How has it impacted your daily life?

It's made life easier, nothing is a struggle and it is no longer painful.

If you were to recommend us, what would you say?

I'd recommend Stuart, 100%
