

# Wetroom Adaptation Customer Testimonial

We spoke to Mr B. from Knighton about the complete level access wetroom installation we recently completed for him to see how he found working with our company.

*"It's a lot, lot better, no two ways about it..."*

**How did you come to choose GB Home Adaptations to do the work?**

I was introduced to you through Care & Repair.

**Did the service meet your expectations?**

Oh yeah definitely. The builders were very good, they were polite. I am very pleased with the finish.

**How has it impacted his daily life?**

It's a lot, lot better, no two ways about it. Before you couldn't use the taps when someone was in the shower. The raised height toilet makes life easier, the shower is wider too. Everything has worked out really well.

**Any tips and advice you share to someone else considering a similar adaptation?**

I would definitely recommend your company to do the work. Very professional, polite, I couldn't fault them.

**If you were to recommend us what would you say?**

Francis from Care & Repair came earlier today to review the work and he asked me if I was happy with it. I told him I'm more than satisfied. Honestly, if anyone wanted to have a bathroom I would recommend your company no doubt about it as I couldn't fault them. They were so professional and ever so polite.
