

# 9 Bed Mansion Full Property Refurbishment

Over a course of four months, our property refurbishment team was called in to update this nine bedroom, three storey mansion in Shropshire. All works and specifications were tailored to the client's requirements and were delivered to a tight schedule. We spoke to the client's Works Manager who oversaw and signed off on the project.

*"We will be using them again for other works in this area..."*

## Did the service meet your expectations?

We have a governing body that recruits and contracts reputable building services for our client, that is how we were originally introduced to GB for this project.

## How has it impacted your daily life?

Above! On the last day, when I got to walk round the finished property and saw the work that had been completed it was far better than I originally expected.

## How has the work impacted property/residents/staff?

The works have enhanced the property value and improved the morale of the occupants using the premises.

## If you were to recommend us, what would you say?

Absolutely, a very good job achieved. Well done to the team involved. We will be using them again for other works in this area.
